FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Board of Education Arapahoe County School District Number Six Littleton, Colorado

Report on the Audit of the Financial Statements *Opinions*

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arapahoe County School District Number Six, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Arapahoe County School District Number Six's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Arapahoe County School District Number Six, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Arapahoe County School District Number Six and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Arapahoe County School District Number Six's ability to continue as a going concern for twelve months beyond the financial

statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Arapahoe County School District Number Six's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Arapahoe County School District Number Six's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, budgetary comparison information, and the GASB required pension and OPEB schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with

management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Arapahoe County School District Number Six's basic financial statements. The combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated , on our consideration of Arapahoe County School District Number Six's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness Arapahoe County School District Number Six's's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Littleton Public Schools's internal control over financial reporting and compliance.

ARAPAHOE COUNTY SCHOOL DISTRICT NUMBER SIX Management's Discussion and Analysis As of and For the Fiscal Year Ended June 30, 2022

As management of the Arapahoe County School District Number Six, Arapahoe County, Colorado (the district), we offer readers of the district's Annual Comprehensive Financial Report this narrative and analysis of the financial activities of the district for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that can be found in the letter of transmittal on pages 1–6.

Financial Highlights

- Beginning June 30, 2015, the Governmental Accounting Standards Board (GASB) issued Statement No. 68, Accounting and Financial Reporting for Pensions, which established new financial reporting requirements for most governments that provide pension benefits through a multiple-employer, cost-sharing defined-benefit pension plan. District employees, including the two charter schools' employees, are in a program administered by the Public Employees' Retirement Association of Colorado (PERA). Statement No. 68 requires the district and its charter schools to record a proportionate share of PERA's unfunded pension liability. The district and its charter schools have no legal obligation to fund any shortfall, nor do they have any liability to affect funding, benefits, or annual required contribution decisions made by PERA.
- Beginning June 30, 2018, the district adopted the provisions of GASB Statement No. 75, Accounting
 and Financial Reporting for Postemployment Benefits Other Than Pensions, which is effective for
 financial statements beginning after June 15, 2017. Statement No. 75 revises and establishes new
 financial reporting requirements for most governments that provide postemployment benefits other
 than pensions (OPEB). Statement No. 75 requires cost-sharing employers participating in the Health
 Care Trust Fund (HCTF) administered by PERA to record their proportionate share of the HCTF's net
 OPEB liability. For the district, the effect of implementing this standard was to change how it accounts
 for and reports the net OPEB liability.
- Beginning June 30, 2019, the district is reporting the resulting effects of the Senate Bill (SB) 18-200 passed and signed into Colorado law June 4, 2018. SB 18-200 makes changes in several key ways to the PERA retirement plan including increasing contribution rates from employers and employees and directing the state to make a \$225 million on-behalf contribution each year to PERA to reduce the unfunded liability. Other changes include modifying retirement benefits by reducing the annual increase for all current and future retirees, raising the retirement age for new employees, and establishing an automatic adjustment provision designed to keep PERA on a path to full funding in 30 years. House Bill (HB) 20-1379 suspended the \$225 million direct distribution payable on July 1, 2020, for the state's 2020–2021 fiscal year due to budget restraints. The direct distribution payable on July 1, 2022, of \$225 million, House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million, upon enactment, with reductions to future direct distributions scheduled on July 1, 2023, and July 1, 2024.
- Beginning June 30, 2022, the district adopted the provisions of GASB Statement No. 87, *Leases*, which is effective for financial statements starting with the fiscal year ending June 30, 2022. Statement No. 87 revises and establishes new financial reporting requirements for most governments that enter into lease agreements. Leased assets are determined by the districts right to control, right to use the asset, and the lease term as specified in the contract, in an exchange-like transaction. The district had deferred lease inflows of \$0.2 million.
- The liabilities and deferred inflows of resources of the district, sometimes referred to as the primary government, exceeded assets and deferred outflows of resources at June 30, 2022, by \$178.2 million, primarily due to the net OPEB and pension liabilities, explained above, of \$208.4 million.
- The financial position of the primary government increased as the total net position increased by

\$80.7 million, primarily from the net pension income of \$84.8 million due to the requirement of GASB Statement No. 68.

- The total cost of basic programs increased \$41.7 million or 33.9 percent, to \$164.7 million compared to the prior year. Primary changes include \$29.0 million capital outlay for new school construction projects, \$9.0 million for added support services and a full year of expenditures in the Operations and Technology fund versus 6 months last year offset by \$7.8 million of revenue due to full participation in programs and activities compared to lower levels during the pandemic.
- Revenues increased \$21.8 million, or 9.7 percent, to \$245.4 million primarily due to the return to inperson learning with activities and fees, the reimbursement rate for nutrition from the U.S.
 Department of Agriculture of \$5.9 million, the district's proportionate share of the state's PERA contribution of \$2.4 million, the increase in property taxes of \$9.4 million, and state equalization of \$3.6 million.
- The net cost of governmental activities increased \$33.8 million, or 34.6 percent, primarily due to a change of \$33.4 million in net pension expense (net pension income) due to the requirement of GASB Statement No. 68.

Overview of the Financial Statements

Management's discussion and analysis are intended to serve as an introduction to the district's annual report and basic financial statements. The financial section of the annual report consists of four parts: management's discussion and analysis, basic financial statements, required supplementary information, and combining statements and individual fund statements and schedules. The basic financial statements include two types of statements that present different views of the district.

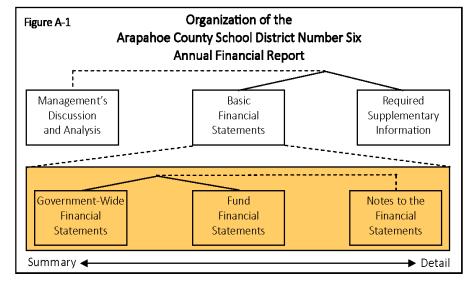

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the district's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the district, reporting the district's operations in more detail than the government-wide statements.
- The governmental funds' statements tell how basic services, such as instruction and support services, were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison to the district's

budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the district's financial statements, including the portion of activities they cover and the types of information they contain. The remainder of this overview section of

management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2
Major Features of the Districtwide and Fund Financial Statements

	Government-Wide	Fund Financial Statements
	Statements	Governmental Funds
Scope	Entire district (except the fiduciary fund)	The activities of the district which are not proprietary or fiduciary, such as instruction and support services
Required Financial Statements	Statement of Net PositionStatement of Activities	Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balance
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus
Type of Inflow/Outflow Information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable

Government-Wide Financial Statements

The government-wide statements report information about the district as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all of the district's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the district's net position and how it has changed. Net position—the difference between the district's assets, liabilities, and deferred outflows and inflows of resources—is one way to measure the district's financial health or position.

- Over time, increases or decreases in the district's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the district's overall health, additional nonfinancial factors may need to be considered, such as changes in the district's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the district's activities are divided into two categories:

- Governmental activities: Most of the district's basic services are included here, such as instruction and support services.
- Component units: The district's two charter schools have independent governing boards but are
 financially dependent upon the district for most of their funding. Generally accepted accounting
 principles (GAAP) prescribe a discrete presentation of the component units—meaning separate
 presentation from the primary government.

Fund Financial Statements

The fund financial statements provide more detailed information about the district's funds, focusing on its most significant or "major" funds—not the district as a whole. Funds are accounting devices the district uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law or GAAP.
- The district establishes other funds to control and manage money for particular purposes (i.e., athletics and activities funded largely by fees and ticket sales) or to show that it is properly using certain revenues, such as federal grants.

The district has one category of funds:

Governmental funds: Most of the district's basic services are included in governmental funds, which
generally focus on how cash and other financial assets can readily be converted to cash flow in and
out and the balances left at fiscal year-end that are available for spending. Consequently, the
governmental fund statements provide a detailed, short-term view that helps determine whether
there are more or fewer financial resources that can be spent in the near future to finance the
district's programs.

Financial Analysis of the District as a Whole

The district's net position of the governmental activities on June 30, 2022, increased \$80.7 million to a negative \$178.2 million from what it was the previous year (see Figure A-3), primarily due to the impact of GASB Statements No. 68 and No. 75.

Assets, deferred outflows of resources, liabilities, and deferred inflows of resources changed from the prior year for the following reasons:

- Current and other assets decreased by \$50.7 million, primarily from lower restricted cash and investments related to Capital Projects–Building Fund.
- Capital assets increased \$28.9 million, which is the net result of capital asset depreciation expense offset by asset additions, and construction in progress.
- Deferred outflows of resources for deferred charges on refunding decreased \$0.2 million due to amortization expense. Deferred outflows related to OPEB increased by \$0.2 million compared to the prior year. Deferred outflows related to pension decreased by \$28.5 million due to a decrease of \$0.1 million to the district's pension contribution subsequent to the measurement date; a decrease of \$7.7 million to the district's pension contribution of proportionate share; a decrease of deferred assumptions of \$12.5 million; and the difference between expected and actual actuarial experience of \$8.2 million.
- Current and other liabilities increased \$2.9 million, mainly due to higher contracts payable in the Capital Projects—Building Fund.
- The net OPEB liability decreased \$0.8 million due to the GASB Statement No. 75 requirement to record a proportionate share of PERA's Health Care Trust Fund (HCTF) net OPEB liability. The net pension liability decreased \$89.1 million due to the GASB Statement No. 68 requirement to record a proportionate share of PERA's unfunded pension liability.
- Noncurrent liabilities decreased \$19.5 million, the net result of bond principal payments, refunding proceeds and issuance costs associated with the 2010 refunding bonds, amortization of bond premium, and accreted interest on bonds.
- Deferred inflows of resources for OPEB decreased \$0.2 million which includes interest earnings and the change in proportionate share of contributions. Deferred inflows of resources for pension decreased \$24.5 million for pension-related activities, of which \$11.4 million is the change in investment earnings and an increase of deferred assumptions of \$24.5 million. Also included is the balance of \$12.5 million change in the proportionate share.
- Net position increased \$80.7 million. This change included a \$17.4 million decrease to net investment in capital assets (capital assets less related debt), a \$2.2 million increase in restricted net position, and a \$95.9 million increase in unrestricted net position due to the adoption of GASB Statements No. 68 and No. 75.

Figure A-3, on the next page, presents a two-year, condensed statement of the district's net position.

Figure A-3
Condensed Statement of Net Position (in millions of dollars)

	Primary Government							
	Government	al Activities	Total Dollars Change					
	2021	2022	2021–2022					
Assets								
Current and other assets	\$ 333.7	\$ 283.0	\$ (50.7)					
Capital assets	249.9	278.8	28.9					
Total assets	583.6	561.8	(21.8)					
Deferred outflows of resources								
Deferred charges on refunding	0.6	0.4	(0.2)					
Deferred OPEB outflows	0.7	0.9	0.2					
Deferred pension outflows	74.0	45.5	(28.5)					
Total deferred outflows	75.3	46.8	(28.5)					
Liabilities								
Current and other liabilities	30.9	33.8	2.9					
Net OPEB liability	10.5	9.7	(0.8)					
Net pension liability	287.8	198.7	(89.1)					
Noncurrent liabilities	458.9	439.4	(19.5)					
Total liabilities	788.1	681.6	(106.5)					
Deferred inflows of resources								
Deferred OPEB inflows	4.3	4.1	(0.2)					
Deferred pension inflows	125.4	100.9	(24.5)					
Deferred lease inflows	-	0.2	0.2					
Total deferred inflows	129.7	105.2	(24.5)					
Net position								
Net investment in capital assets	15.8	(1.1)	(16.9)					
Restricted	41.3	43.5	2.2					
Unrestricted	(316.0)	(220.6)	95.4					
Total net position	\$ (258.9)	\$ (178.2)	\$ 80.7					

The district's change in financial position is related to operating results (see Figure A-4), which are highlighted as follows:

- Revenues of \$245.4 million were higher than expenses of \$164.7 million, resulting in an \$80.7 million increase in net position. Total revenues increased \$21.8 million over revenues in the prior year and total expenses increased \$41.7 million, primarily due to the decrease of \$88.9 million of net pension expense due to GASB Statement No. 68.
- The State of Colorado's General Assembly included a 6.70 percent negative per-pupil budget stabilization factor into the School Finance Act (SFA) for fiscal year 2021–2022. This budget stabilization factor was to help the state balance its budget due to the fiscal crisis. The district's perpupil revenue was \$8,607 compared to \$9,150 without the budget stabilization factor. The SFA was supported by state equalization funds, local taxes, and property taxes in the fiscal year.
- The average funded student count, which is the per-pupil basis for fiscal year 2021–2022 SFA program funding, decreased by 8.0 percent to 13,342.5 from 14,513.9 the previous year.
- Property tax collections were strong compared to the prior year increasing by \$9.4 million, primarily due to timing of collections and the higher property assessment values. The collection of specific ownership taxes was slightly lower this year compared to the prior year. The decrease of these taxes were \$0.3 million primarily due to constrained new car supply chain delivery. Interest rates were low

for most of the fiscal year with increases beginning in the last fiscal quarter resulting in lower interest revenue.

- Total expenses of \$164.7 million represent a \$41.7 million or 33.9 percent increase compared to the prior year. Instructional expenses increased \$3.1 million primarily due to internet, science, math, and English language arts curriculum improvements compared to fiscal year 2020–2021. Support services expenses increased \$38.6 million, of which \$9.2 million represents the net OPEB and pension expense change compared to the prior fiscal year. Interest expenses were the same as prior year based on low interest rates for most of the fiscal year.
- The one-time spending of \$3.3 million for student and staffing needs from the unassigned fund balance included improvements to four subjects of curriculum, staff development, and student technology equipment. In addition the Board approved \$12.0 million of assigned fund balance for the Explorative Pathways for Innovative Careers (EPIC) Campus in the prior fiscal year for new school start-up expenditures.

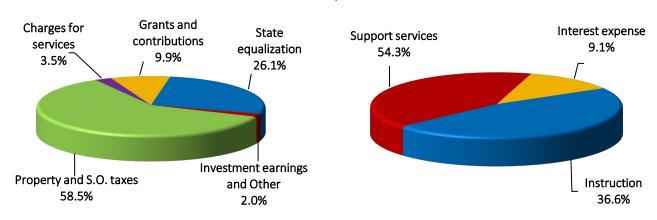

Figure A-4 presents a two-year summary of change in net position.

Figure A-4
Change in Net Position from Operating Results (in millions of dollars)

	Primary Go Government 2021		Total Percent Change 2021–2022

Net position—end of year	\$(258.9)	\$(178.2)	

Figure A-5
Sources of Revenue for Fiscal Year 2022

Figure A-6 Expenses for Fiscal Year 2022

Governmental Activities

Revenues increased \$21.8 million, or 9.7 percent, to \$245.4 million. Total expenses increased \$41.7 million to \$164.7 million as a result of the net OPEB and pension expense of \$9.2 million due to GASB Statements No. 68 and No. 75, salary and benefit increases, inflationary pressures, and state budget reductions. Revenues exceeded expenses resulting in an \$80.7 million increase in net position.

Figure A-7 summarizes the net cost of governmental activities, as presented in the statement of activities in the government-wide financial statements. The table also shows each activity's *net cost* (total cost less fees generated by the activities and other aid provided for specific programs). The net cost shows the financial burden placed on local and state taxpayers for each of the functions. Program revenues of \$33.0 million are a much smaller funding source for public school district governmental activities, representing only 13.5 percent of total revenues of \$245.4 million.

Figure A-7
Net Cost of Governmental Activities (in millions of dollars)

Function/Program	Total of Ser	l Cost Percent rvices Change		Net (of Serv		Percent Change
	2021	2022	2021–2022	2021	2022	2021–2022
Instruction	\$ 57.3	\$ 60.4	5.4%	\$ 41.1	\$ 42.4	3.2%
Support services	50.8	89.4	76.0	41.8	74.5	78.2
Interest expense	14.9	14.9	0.0	15.0	14.9	(0.7)
Total	\$ 123.0	\$ 164.7	33.9	\$ 97.9	\$ 131.8	34.6

Other items of note about governmental activities from the statement of activities are as follows:

- The cost of all governmental activities for the year was \$164.7 million.
- Some of the cost was financed by the users of the programs, \$8.7 million.
- The federal and state governments, along with private donors, subsidized certain programs with operating grants of \$24.3 million.
- Most of the net cost of \$131.8 million was financed by general revenues from state and local taxpayers.
- Net cost of governmental services increased \$33.9 million, or 34.6 percent, from \$97.9 million in the previous year to \$131.8 million.

- General revenues totaled \$245.4 million, consisting of \$143.6 million in property and specific ownership taxes, \$64.0 million in state equalization aid, \$13.5 million of interest earnings and other revenue, and \$24.3 million in operating grants.
- The resulting increase in governmental activities' net position was \$80.7 million.

Financial Analysis of the District's Governmental Funds

As noted earlier, the district uses fund accounting to ensure and demonstrate compliance with GAAP, the SFA, and other related legal requirements. The governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the district's financing requirements.

Fund Analysis

The General Fund, including the Risk Management sub-fund, is a major fund and is the most significant fund of the district. The Capital Projects Fund and the Student Athletic, Activities, and Clubs Fund are supported by the General Fund and recorded transfers out totaling \$3.5 million for the year. The Capital Projects—Building Fund is a capital improvement fund used to account for the major capital outlays for district facilities supported by the voter-approved 2018 bond election. These one-time bond proceeds are used for major capital expenditures to replace facilities for the district and were incurred for this fiscal year. The Designated Purpose Grant Fund is supported by grant revenues and the Debt Service Fund by voter-approved property tax mill levies to meet general obligation debt service requirements. The Extended Day Care Program Fund is supported by tuition, while the Nutrition Services Fund receives funding from federal grants along with sales of breakfasts and lunches. The operations and technology fund was created on January 1, 2021, and is funded by the Debt-Free Schools Mill Levy that was passed by the voters in November 2020. Expenditures eligible for this fund include ongoing building maintenance, capital improvements, and technology expenditures.

Total General Fund school finance program funding, which includes property taxes, specific ownership taxes, and state equalization for fiscal year 2021–2022, was impacted by the state's cost-of-living increase, a negative per-pupil budget stabilization factor of 6.7 percent, and slightly lower enrollment.

- Overall, the General Fund reported revenue of \$175.3 million for fiscal year 2021–2022, which was \$15.4 million higher when compared to the previous year. This increase is primarily due to increased property and specific ownership taxes and state equalization aid.
- Expenditures reported in the General Fund increased \$3.0 million to \$158.0 million for fiscal year 2021–2022. Net transfers to other funds increased \$0.8 million to \$3.5 million when compared to the prior year. Expenditures included salaries and benefits, new school start-ups, inflationary pressures, and one-time student and staffing spending. The fund balance in the General Fund increased \$14.0 million for fiscal year 2021–2022.

District management intends to continue to balance the General Fund's current resources with budgeted expenditures in order to maintain an adequate fund balance. Administration, with Board approval, will continue to make the necessary long-term budgetary adjustments in order to achieve a continued healthy financial outlook.

The Capital Projects—Building Fund expenditures totaled \$70.0 million related to major capital construction projects and district facility upgrades. This resulted in a decrease in fund balance of \$70.4 million.

General Fund Budget

Current General Fund expenditures, excluding the Risk Management sub-fund, totaled \$152.1 million or 84.0 percent of the budget compared to 93.0 percent of budget the prior year. Budget carryovers are allowed by policy in various operating areas. The unspent expenditure amounts at the end of 2021–2022 is mostly due to the under-spending of the final budget that will be rolled into the subsequent year. The district's contingency budget represents the majority of unspent appropriation and anticipated ending fund balance. The final budget reported a contingency reserve of \$19.2 million, which represents 10.6 percent of budgeted expenditures. Revenues of the General Fund amounted to 104.3 percent of budgeted revenues.

Capital Assets and Long-Term Debt

Capital Assets

As shown in Figure A-8, total primary government capital assets, net of depreciation, increased a net \$28.4 million to \$278.8 million compared to the previous year. This was the result of \$10.0 million of net depreciation expense, \$14.6 million of asset disposals, \$110.1 million of asset capitalization, and \$69.0 million of construction in progress. Asset additions consisted of building improvements, buildings, equipment, implementation of GASB 87 for leases, and vehicles.

Figure A-8
Capital Assets (net of depreciation, in millions of dollars)

	<u>Gover</u> Goverr	Primary <u>nment</u> nmental vities	Dollars Change

Construction in progress	122.2	53.2	(69.0)			
Total	\$ 250.4	\$ 278.8	\$ 28.4			

More detailed information about capital assets is presented in Note II, C. Capital Assets, of the financial statements. (1)The beginning balance of this footnote was restated due to the implementation of GASB Statement No. 87.

Long-Term Debt

As of year-end, the district had \$439.4 million in general obligation bonds and other long-term debt outstanding, a decrease of \$20.0 million, as shown in Figure A-9. The outstanding general obligation bonds at June 30, 2022, consisted of the 2013 general obligation bonds of \$50.0 million, 2014 general obligation bonds of \$17.0 million, 2015 general obligation bonds of \$15.6 million, and the 2019 general obligation bonds of \$288.6 million and the 2020 general obligation refunding bonds of \$26.4 million.

More detailed information about long-term liabilities is presented in Note II, E. Long-Term Debt, of the financial statements.

Total	\$ 459.4	\$ 439.4	\$ 20.0	

(1) The beginning balance of this footnote was restated due to the implementation of GASB Statement No. 87.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the district contemplated the following factors that could significantly affect its financial health in the future.

- Globally and locally, the district remains in unprecedented times, with shifting and still-elevated
 economic risks related to inflation pressures. There is still a great deal of uncertainty about how much
 of the shifts in consumer, business, and worker behavior will continue and whether short-term
 disruptions will have long-lasting ripple effects. The receding federal funding will result in strains on
 the General Fund.
- The state's General Assembly incorporated a statewide base per-pupil revenue (PPR) increase of 3.5 percent for inflation; however, the state set a budget stabilization factor of 3.7 percent for 2022–2023. This kept the statewide average total PPR at \$9,559, thus reducing the state share by \$321.2 million for a total reduction of approximately \$10.1 billion over the last 14 years. The average statewide PPR funding without the budget stabilization factor funding cut would have been \$9,924 or \$365 more per student.
- Due to the state funding, it is projected that the district's per-pupil funding will increase \$4.3 million when compared to 2021–2022 to \$127.2 million in 2022–2023. Full per-pupil funding would have equated to \$132.0 million, a loss of revenue to the district of \$4.8 million.
- Along with the CARES Act from the previous year, the district received Elementary and Secondary School Emergency Relief (ESSER) funds, which provided one-time grant funding to education to support expenses incurred due to COVID-19. The district received \$5.1 million allocated from the ESSER grant. Allowable uses for these funds include complying with state and local public health orders, planning and implementing remote learning, recovering plans from lost learning time, meeting mental health needs, purchasing sanitation supplies, and providing other services necessary to limit the transmission of the COVID-19 virus. The district accounted for revenue and expenditures of this grant in its Designated Purpose Grants Fund and continues to spend on allowable items.
- The 2022–2023 budget has a 7.0 percent salary increase for licensed staff, 7.5 percent for classified staff, and 6.75 percent for administrative staff. Employer contributions to PERA increased 0.5 percent and health insurance increased 8.0 percent.
- Major projects for fiscal year 2021–2022 include construction of the new Gaskill Elementary School.
 Projects for 2022–2023 include construction of the new Little Raven Elementary School, construction of the EPIC campus, a middle school stadium, and various projects throughout the district. A citizen's

oversight committee will continue to review the use of these dollars to ensure that the funding is used for the purposes that were represented to the voters.

- The Board reviewed several new boundary options presented by the Long-Range Planning Committee (LRPC) during 2020–2021. The purpose of the study was to address growing transportation challenges, provide boundaries for Ford Elementary School, the new Gaskill Elementary School, and better balance enrollment throughout the district. In August 2020, the Board approved changes to the district's attendance boundaries after revisiting parent survey results. These new boundaries will take effect for the 2021–2022 school year. The district will continue to monitor the changes.
- In August 2020, the Board approved language for a Debt-Free Schools Mill Levy to be placed on the November 2020 ballot. The question asked voters to approve a tax increase of \$12 million, or no more than six mills, for collection starting in 2021. One additional mill can be approved by the Board each year, not to exceed 11 mills in total. The passage of this mill levy override will allow the district to cover ongoing building maintenance, capital improvements, and technology expenditures, thereby freeing up General Fund dollars for purposes such as continuing to attract and retain quality teachers; maintaining counselors and mental health support; and providing career, technical, and skilled trade programming. The 2022–2023 Adopted Budget included revenue from one additional mill along with the corresponding expenditures to be approved by the Board in December 2022.

Contacting the District's Financial Management

This financial report is designed to provide the district's citizens, taxpayers, customers, investors, and creditors with a general overview of the district's finances and to demonstrate the district's accountability for the money it receives and spends. If you have questions about this report or need additional financial information, please contact the Finance Office, Littleton Public Schools, 5776 South Crocker Street, Littleton, CO 80120. Additional information is available on the district website at www.littletonpublicschools.net.

ARAPAHOE COUNTY SCHOOL DISTRICT NUMBER SIX Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2022

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances—total governmental funds	\$ (54,367,261)
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation/amortization expense (\$10,030,607) and net book	(34,307,201)
value of disposed assets (\$4,337,949) exceeds net capital asset additions of \$42,656,192.	28,287,636
Property tax revenues that do not provide current financial resources are deferred in the governmental fund financial statements but are recognized in the government-wide financial statements.	2,201,657
Unearned property tax revenue of the prior year received in the current year is recognized in the prior year statement of activities and in the current year fund statements.	(1,835,744)
Repayments of bond principal of \$15,146,250 reduce long-term liabilities in the statement of net position and do not affect the statement of activities.	15,146,250
The premium received on the issuance of bonds and the book loss on refunding of bonds are amortized over the life of the bonds. Current year amortization of the premium on bonds is net of amortization on the loss on refunding and is reported as a reduction to interest expense on the statement of activities.	5,240,961
In the statement of activities, certain operating expenses, such as compensated absences, are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amounts actually paid). This is the amount by which benefits of \$1,561,023 exceeds usage of (\$1,393,244).	(167,779)
Decreases to prepaid insurance premiums are expensed in the fund financial statements.	56,231
Net OPEB liability activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities consist of OPEB income of \$1,271,594 including change in contribution susequent to measurement date (\$9,264).	1,271,594
Net pension liability activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. These activities consist of pension income \$84,777,583, including change in contribution subsequent to measurement date (\$92,912).	85,064,758
Interest payable on general obligation debt is not recorded on the fund financial statements because it is not a current use of cash. Interest of \$1,551,003 is accrued on the government-wide statements since the liability is to be paid in the near term. Accreted interest of \$1,718,606 is on the government-wide statements classified as due in more than one year. The liability in the prior year was interest of \$1,610,370 and accrreted interest of \$1,460,839, resulting in additional interest expense reported for the current year.	(198,400)
Change in net position of governmental activities	\$ 80,699,903

See accompanying Notes to Basic Financial Statements.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Arapahoe County School District Number Six (the district) is a political subdivision of the state of Colorado, and it is governed by an elected five-member Board of Education (the Board). The accompanying financial statements present the district, the primary government, and its component units, entities for which the district is considered financially accountable. The discretely presented component units are reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that they are legally separate from the district.

Discretely Presented Component Units. The district's charter schools consist of two separately authorized charters: Littleton Academy and Littleton Preparatory. Charter schools are public schools authorized by the state of Colorado to provide alternatives for parents, pupils, and teachers. The charter schools are organized as legal entities, each with a separate governing board. However, the district must approve all charter school applications. Funding, as required by law, flows from the Colorado Department of Education through the district to the charter schools on a monthly basis. The charter schools are *discretely* presented as component units because of the significance of their financial relationship with the district and the services they provide to district students. Separate financial statements for each of the charter schools can be found at the following websites: www.academy.littletonpublicschools.net and www.littletonprep.littletonpublicschools.net.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities are primarily supported by taxes and intergovernmental revenues. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include: 1) charges for services that relate to a given function or program; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the district considers revenues to be available if they are collected within 30 days of the end of the current fiscal period or within 90 days for federal grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, and expenditures related to compensated absences, claims, and judgments, are recorded only when payment is due.

Property taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period, provided the availability criteria has been met. All other revenue items are considered to be measurable and available only when cash is received by the district.

The district reports the following major governmental funds:

- The General Fund is the district's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Debt Service Fund accounts for dedicated revenue for the payments of principal and interest on long-term general obligation debt.
- The Capital Projects—Building Fund is a capital improvement fund which accounts for the major capital outlays for district facilities funded by the voter-approved 2019 general obligation bonds.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. An exception to this general rule is that inter-fund services provided and used are not eliminated in order to avoid distortion of direct costs and program revenues.

Amounts reported as program revenues include charges for services and operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all state formula aid and local property taxes.

When both restricted and unrestricted resources are available for use, it is the district's policy to use restricted resources first, followed by unrestricted resources as needed.

D. Assets, Liabilities, and Net Position or Equity

1. Deposits and Investments

In order to facilitate the recording of cash transactions and maximize earnings on investments, the district has combined the cash resources of its funds and maintains accountability for each fund's equity in the pooled cash and investments reported at net asset value, amortized cost, or categorized by level within GASB Statement No. 72.

2. Receivables

Property taxes levied in 2021 but not yet collected in 2022 are identified as property taxes receivable in the governmental funds balance sheet at June 30, 2022, and are presented net of an allowance for uncollectible taxes. Intergovernmental receivables include amounts due from grantors for specific program grants.

Lessor: The district determines if an arrangement is a lease at inception. Leases are included in lease receivables and deferred inflows of resources in the statements of net position and fund financial statements.

Lease receivables represent the district's claim to receive lease payments over the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease receivables are recognized at commencement date based on the present value of expected lease payments over the lease term, reduced by any provision for estimated uncollectible amounts. Interest revenue is recognized ratably over the contract term.

Deferred inflows of resources related to leases are recognized at the commencement date based on the initial measurement of the lease receivable, plus any payments received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The deferred inflows related to leases are recognized as lease revenue in a systematic and rational manner over the lease term.

Amounts to be received under residual value guarantees that are not fixed in substance are recognized as a receivable and an inflow of resources if (a) a guarantee payment is required and (b) the amount can be reasonably estimated. Amounts received for the exercise price of a purchase option or penalty for lease termination are recognized as a receivable and inflow of resources when those options are exercised.

The district has elected to recognize payments received for short-term leases with a lease term of 12 months or less as revenue as the payments are received. These leases are not included as lease receivables or deferred inflows on the statements of net positions and fund financial statements.

The individual contracts do not provide information about the discount rate implicit in the lease. Therefore, the district has elected to use their incremental borrowing rate to calculate the present value of expected lease payments.

3. Inventories, Deposits, and Prepaid Items

All inventories are valued at cost using the average cost method. Inventories are recorded as expenditures when consumed rather than when purchased. The district deposited an amount with an insurance provider, which is termed deposits.

Expenditures for insurance and similar services extending over more than one accounting period are not allocated between or among accounting periods in the governmental funds and are instead accounted for as expenditures in the period of acquisition (purchase method).

4. Restricted Assets

As required by state law, a third party custodian administers the district's Debt Service Fund. The trust department of a commercial bank serves as custodian, receiving property tax collections directly from the county treasurer, investing money, and making debt service payments. The balance in the bank account is reported as a restricted investment. The Capital Projects—Building Fund has a balance related to general obligation bonds for capital improvements. The balance of this fund is reported as restricted.

5. Capital Assets

Capital assets, which include property and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the district as assets with an initial individual cost of \$5,000 or more for government activities and an estimated useful life in excess of one year. Such assets are recorded at acquisition cost or estimated acquisition cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Maintenance, repairs, and minor renovations are recorded as expenditures when incurred. Major additions and improvements are capitalized.

Property, plant, and equipment of the primary government, and the component units are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings	20-50
Equipment	5-20
Vehicles	8-15

6. Compensated Absences

District policy allows unlimited accumulation of vacation leave and unused sick days. Accrued vacation is paid to eligible employees upon termination of employment, limited to two years' accrual. Payment for unused sick days is made upon an employee's retirement as defined by the district, not to exceed annual contract days times a factor of one-half (1/2) the daily pay rate of a substitute teacher. Each fund liquidates the accrued vacation and sick leave for its respective liabilities.

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. One item that qualifies for reporting in this category is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. See Note III D for deferred pension outflows of resources and Note III E for deferred OPEB outflows of resources.

In addition to liabilities, the district's financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. One type of item that qualifies for reporting in this category is property tax revenue, which is considered a deferred inflow of resources in the year the taxes are levied and measurable and is recognized as an inflow of resources in the period the taxes are collected. See Note III D for deferred pension inflows of resources and Note III E for deferred OPEB inflows of resources.

8. On-Behalf Payments

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one

entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The state of Colorado makes direct on-behalf payments for retirement benefits to Colorado PERA. Beginning on July 1, 2018, the state of Colorado is required to make a payment to PERA each year equal to \$225 million. PERA allocates the contribution to the trust funds of the State, School, Denver Public Schools, and Judicial Division Trust Funds of PERA, as proportionate to the annual payroll of each division. This annual payment is required on July 1st of each year thereafter until there are no unfunded actuarial accrued liabilities of any division of PERA that receives the direct distribution. House Bill (HB) 20-1379 suspended the \$225 million direct distribution payable on July 1, 2020, for the state's 2020–2021 fiscal year. The direct distribution due July 1, 2022, of \$225 million (actual dollars), House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million (actual dollars), upon enactment, with reductions to future direct distributions scheduled on July 1, 2023, and July 1, 2024.

9. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums are deferred and amortized over the life of the bonds using the straight-line method, which approximates to the effective interest method, and issuance costs are expensed. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize the face amount of debt issued as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs are reported as debt service expenditures.

Lessee: The district determines if an arrangement is a lease at inception. Leases are included in lease assets and lease liabilities in the statement of net position.

Lease assets represent the district's control of the right to use an underlying asset for the lease term, as specified in the contract, in an exchange or exchange-like transaction. Lease assets are recognized at the commencement date based on the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. Lease assets are amortized in a systematic and rational manner over the shorter of the lease terms or the useful life of the underlying asset.

Lease liabilities represent the district's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the commencement date based on the present value of expected lease payments over the lease term, less any lease incentives. Interest expense is recognized ratably over the contract term. The lease term may include options to extend or terminate the lease when it is reasonably certain that the district will exercise that option.

The district has elected to recognize payments for short-term leases with a lease term of 12 months or less as expenses as incurred, and these leases are not included as lease liabilities or right-to-use lease assets on the statements of net position.

The individual lease contracts do not provide information about the discount rate implicit in the lease. Therefore, the district has elected to use their incremental borrowing rate to calculate the present value of expected lease payments.

10. Property Taxes

Property taxes are levied by the Board. The levy is based on assessed valuations determined by the county assessor. The levy is set by December 15 by certification to the county commissioners to levy the individual properties as of January 1 of the following year. The county treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or in equal installments at the taxpayers' election on February 28 and June 15. Delinquent taxpayers are notified in August, and tax sales of the liens on delinquent properties are held in November. The county treasurer remits taxes collected to the district on a monthly basis.

In the fund financial statements, property taxes are recorded initially as a receivable, net of allowance for doubtful collections, and as a deferred inflow of resources in the year they represent an enforceable lien and are measurable. The deferred inflow of resources is recorded as revenue in the year they are available.

11. State Equalization Aid

State equalization aid is revenue received from the state of Colorado computed in accordance with a funding formula as defined by state statute. The funding formula considers such factors as pupil enrollment and other revenue sources.

12. Net Position/Fund Balance

In the government-wide financial statements, net position is restricted when constraints placed on the net position are externally imposed. In the fund financial statements, governmental funds report fund balances based on financial reporting standards that establish criteria for classifying fund balances into specifically defined classifications to make the nature and extent of constraints more useful and understandable. The classifications comprise a hierarchy based primarily on the extent to which the district is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balances may be classified as nonspendable, restricted, committed, assigned, or unassigned.

Nonspendable Fund Balance—amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact, i.e., inventories and prepaids.

Restricted Fund Balance—amounts that are restricted to specific purposes. The spending constraints placed on the use of fund balance amounts are externally imposed by creditors, grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation that are legally enforceable, i.e., Taxpayer's Bill of Rights (TABOR).

Committed Fund Balance—amounts that can only be used for specific purposes pursuant to constraints imposed by the Board by resolution. The committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

Assigned Fund Balance—amounts that are constrained by the district's intent to be used for specific purposes but are neither restricted nor committed. Per Board policy, authority is delegated to the superintendent, or the superintendent's designee, to assign fund balance.

Unassigned Fund Balance—the remaining fund balance, after amounts are set aside for other classifications. The Board assigns the superintendent or designee the responsibility of

accumulating and maintaining a minimum General Fund unassigned fund balance of five percent of the district's adopted General Fund revenue budget of the current fiscal year.

The district has established a policy for its use of restricted and unrestricted fund balances. When expenditures are incurred, the district uses restricted fund balances first if the expenditure is for a restricted purpose. Unrestricted expenditures are applied to committed, assigned, and unassigned fund balances in that order.

13. Adoption of New Accounting Standards

In June 2017, the Governmental Accounting Standards Board (GASB) adopted Statement No. 87, Leases. This standard requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows or outflows of resources to be recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financing the right to use an underlying asset. Under this standard, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. Due to the hardships caused by the global pandemic, the implementation of GASB 87 was voted to defer the effective date for governmental organizations for one year. Accordingly, the district adopted the requirements of the guidance effective July 1, 2021. The implementation of this standard resulted in the district, Littleton Academy and Littleton Preparatory, respectively, reporting a right-to-use asset and a lease liability as disclosed in Note C and Note F. In addition, the district reported a right-to-use asset as a lease receivable and deferred inflow of resources as disclosed in Note 14.

14. Leases Receivable and Deferred Inflow of Resources

The district, acting as lessor, leases the district property and facilities under long-term non-cancelable lease agreements. The district recognizes a lease receivable and a deferred inflow of resources in the applicable governmental activities in the government-wide, governmental and propriety fund financial statements. At the commencement of a lease, the district initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term. The leases expire at various dates through 2028 and provide for renewal options ranging from one year to five years.

Total future minimum lease payments to be received under lease agreements are as follows:

	Lease Receivable				
Fiscal Year Ending					
June 30	Principal	Interest	Total		
2023	\$ 69,624	\$ 5,124	\$ 74,748		
2024	53,343	3,574	56,917		
2025	37,063	2,477	39,540		
2026	33,955	1,360	35,315		
2027	12,467	720	13,187		
2028-2032	17,695	369	18,064		
Totals	\$224,147	\$13,624	\$237,771		

The district monitors changes in circumstances that would require a re-measurement of its leases and will re-measure the lease receivable and deferred inflow of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

II. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

Cash and investments as of June 30, 2022, consist of the following:

Cash on hand	\$ 22,860
Deposits with financial institutions	916,380
Investments	281,591,080
Total cash and investments	\$ 282,530,320

Cash and investments as of June 30, 2022, are classified in the accompanying financial statements as follows:

Statement of net position:

Equity in pooled cash and investments, primary government	\$ 72,837,856
Restricted investments, primary government	203,760,222
Equity in pooled cash and investments, component units	5,932,242
Total cash and investments	\$ 282,530,320

Deposits with Financial Institutions

The district's cash and deposit policies are approved by the Board and governed by Colorado statutes. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102.0 percent of the uninsured deposits.

Investments

Investment policies of the district and the component units, which comply with state statutes, permit investments in:

- U.S. Treasury obligations
- Federal instrumentality securities
- Repurchase agreements with a termination date of 180 days or less
- Time certificates of deposit
- Local government investment pools
- Money market mutual funds
- Commercial paper
- Municipal notes or bonds
- Any other investment which is authorized by state statute

Investments as of June 30, 2022, consist of the following:

Investments	12 months or less	1 to 5 years	Total Investment
Local government investment pools	\$ 115,858,935	\$ -	\$ 115,858,935
Mutual fund	91,761,129	-	91,761,129
Certificate of deposit	24,213,935	-	24,213,935
U.S. Treasury notes	16,782,129	5,968,569	22,750,698
U.S. Agencies	16,794,780	-	16,794,780
Supra-National Agency Bond/Note	4,314,092	825,894	5,139,986
Commercial paper	4,517,000	-	4,517,000
Bank Note	-	554,617	554,617
Total	\$ 274,242,000	\$ 7,349,080	\$ 281,591,080

Interest rate risk is the extent to which changes in interest rates will adversely affect the fair value of an investment. The district's investment policy limits investment maturities to less than five years as a means of managing its exposure to interest rate risk. The district investments have a maturity of less than five years.

Investments as of June 30, 2022, consist of the following by Standard & Poor's or Fitch Rating:

Investments	A-1	A-1+	AA-	AA+	AAA	AAAf	AAAm	Total
Local government investment pools	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$115,858,935	\$115,858,935
Mutual Fund	-	-	-	=	-	45,000,000	46,761,129	91,761,129
Certificates of deposit	9,281,449	14,932,486	-	-	-	-	-	24,213,935
U.S. Treasury	-	-	-	22,750,698	-	-	-	22,750,698
U.S. Agencies	_	-	-	16,794,780	-	-	=	16,794,780
Supra-National Agency Bond/Notes	-	-	-	-	5,139,986	-	-	5,139,986
Commercial paper	4,517,000	-	-	-	-	-	-	4,517,000
Bank Notes			554,617					554,617
Total	\$13,798,449	\$14,932,486	\$554,617	\$39,545,478	\$5,139,986	\$45,000,000	\$162,620,064	\$281,591,080

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments for school districts to U.S. Treasury issues, other federally backed notes and credits, and other agency offerings without limitation. Other investment instruments, including bank obligations, general obligation bonds, and commercial paper, are limited to at least one of the highest rating categories of at least one nationally recognized rating agency. State law further limits investments in money market funds organized according to Federal Investment Company Act of 1940, as specified in rule 2a-7, as amended, as long as such rule does not increase remaining maturities beyond a maximum of three years. Investments in these funds require that the institutions have assets in excess of \$1 billion or the highest credit rating from at least one nationally recognized rating agency.

Concentration of credit risk—State statutes generally do not limit the amount the district may invest in one issuer. The investments individually do not garner greater than five percent of total investments.

Fair value measurement—The district categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The district has the following recurring fair value measurements as of June 30, 2022:

- U.S. Treasury securities of \$22.8 million are valued using quoted market prices
- U.S. agencies' securities of \$16.8 million are valued using quoted market prices
- Commercial paper of \$4.5 million are valued using quoted market prices
- Mutual funds of \$91.8 million are valued using quoted market prices
- Supra-National Agency Bond/Notes of \$5.1 million are valued using quoted market prices
- Bank Notes of \$0.6 million are valued using quoted market prices

The district does not hold any investments that meet the definition of Level 2 or Level 3 inputs.

As of June 30, 2022, the district invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all state statutes governing COLOTRUST. COLOTRUST operates similarly to a money market fund, and each share is equal in value to \$1.00. COLOTRUST offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest-rated commercial paper, and any security allowed under C.R.S. 24-75-601. A designated custodial bank serves as custodian for COLOTRUST's portfolios pursuant to a custodian agreement. The custodian acts as the safekeeping agent for the COLOTRUST's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by COLOTRUST. COLOTRUST is rated AAAm by Standard & Poor's. COLOTRUST records investments at fair value, and the district records investments in COLOTRUST at net asset value. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

As of June 30, 2022, the district invested in the Colorado Surplus Asset Fund Trust (CSAFE) Colorado CORE, an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all state statutes governing CSAFE. CSAFE operates similarly to a money market fund, and each share is equal in value to \$2.00. CSAFE is rated AAAm by Standard & Poor's and is valued at fair value basis. CSAFE records investments at fair value, and the district records investments in CSAFE at net asset value. There are no unfunded commitments, the redemption frequency is daily, and there is a one-day redemption notice period.

As of June 30, 2022, the district invested in the Colorado Statewide Investment Program (CSIP), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all state statutes governing CSIP. CSIP operates similarly to a money market fund, and each share is equal in value to \$1.00. CSIP Liquid Portfolio is rated AAAm by Standard & Poor's and is valued at amortized cost. CSIP Term is rated AAAf by Fitch. It records investments at fair value, and the district records investments in CSIP Term at net asset value. There are no unfunded commitments, the redemption frequency is daily, and there is a one-day redemption notice period. Based on the valuation method, additional disclosures are not required under GASB Statement No. 72.

Component Units

The district's two charter schools' restricted investments at June 30, 2022, consist of the following:

Total	Standard & Poor's
Investments	Rating
\$ 6,337,167	AAAm
765,450	AAAm
\$7,102,617	
	\$ 6,337,167

Interest rate risk is the extent to which changes in interest rates will adversely affect the fair value of an investment. The charter schools do not have a formal investment policy that limits investment maturities as a means of managing their exposure to fair value losses arising from increasing interest rates. State statutes generally limit the maturity of investment securities to five years from the date of purchase, unless the governing board authorized the investment for a period in excess of five years. The charter schools' investments have a maturity of less than twelve months.

Credit risk for the charter schools is the same as the districts. The charter schools' investments as of June 30, 2022, were rated AAAm by Standard & Poor's.

Concentration of credit risk—State statutes generally do not limit the amount the charter schools may invest in one issuer.

B. Inter-Fund Receivables, Payables, and Transfers

Inter-fund transfers in/out for the fiscal year ended June 30, 2022, are shown below.

	Transfers In						
		Nonmajor Funds					
			Student	Extended			
		Nutrition	Athletic,	Day Care	Capital		
	General	Services	Activities, and	Program	Projects		
Transfers Out	Fund	Fund	Clubs Fund	Fund	Fund	Total	
General Fund	\$ 263,995	\$ -	\$ 2,006,123	\$ -	\$1,540,179	\$ 3,810,297	

Annually, the district subsidizes the Student Athletic, Activities, and Clubs Fund and the Capital Projects Fund by a transfer from the General Fund.

C. Capital Assets

Capital asset activity for the fiscal year ended June 30, 2022, is shown below.

	Balance (1) July 1, 2021	Increases	Decreases	Balance June 30, 2022
Governmental activities:				
Capital assets, not depreciated:				
Land	\$ 10,592,063	\$ -	\$ -	\$ 10,592,063
Construction in progress	122,171,694	42,175,598	(111,110,153)	53,237,139
Total capital assets, not depreciated	132,763,757	42,175,598	(111,110,153)	63,829,202
Capital assets, being depreciated:				
Land improvements	21,624,808	2,946,988	(578,016)	23,993,780
Building and improvements	275,232,734	107,359,420	(12,755,949)	369,836,205

D. Accrued Compensation

Accrued compensation relates to salaries and benefits of certain contractually employed personnel, which are paid over a 12-month period from August to July, but are earned during a school year of approximately nine months. The salaries and benefits earned, but unpaid at June 30, 2022, are estimated to be \$8,401,382.

E. Short-Term Debt

During the year ended June 30, 2022, the district borrowed \$1,410,181 from the State Treasurer's interest-free loan program. The borrowing was necessary to finance cyclical cash flow requirements of the district during the fiscal year ended June 30, 2022. The amount borrowed was paid in full by the maturity date June 30, 2022.

F. Long-Term Debt

General Obligation Bonds: The district has issued general obligation (G.O.) bonds to provide funds for major improvement projects to existing facilities. These bond issues were primarily for governmental activities. The issued amounts of the 2013 G.O. bonds, the 2014 G.O. bonds, and the 2015 G.O. bonds are \$50,000,000; \$17,000,000; and \$12,998,580 (with additional 'B' interest certificates of \$2,627,615), respectively, as part of the November 2013 voter-approved \$80,000,000 capital improvement projects. The district issued the 2019 G.O. bonds for

\$298,870,000 as part of the November 2018 voter-approved capital improvement projects. The issued amount of the 2020 G.O. bonds was \$26,370,000 for G.O. refunding bonds issued October 2020 to refund a majority of the outstanding G.O. bonds, Series 2010 of \$28,855,000, on an advance refunding basis; which saved the Littleton Public Schools taxpayers \$3,242,926 on a present value basis. This advanced refunding reduced the district's total debt service payments over the next four years by \$3.25 million to obtain an economic gain (difference between the present value of the old and the new debt service payments) of \$3.24 million.

Premiums on bonds were received with the 2013 G.O. bonds issue as additional proceeds of \$2,336,062; the 2014 general obligation bonds issue as additional proceeds of \$1,115,552; the 2015 G.O. bonds issue as additional proceeds of \$2,262,339; the 2019 G.O. bonds issue as additional proceeds of \$60,756,343; and the 2020 G.O. refunding bonds issue as additional proceeds of \$3,443,234. For full accrual accounting purposes, the premium is combined with the debt and amortized over the life of the bonds.

G.O. bonds are direct obligations and pledge the full faith and credit of the district. General property taxes provide the revenue for payments of principal and interest on the bonds. Voters in the district approve the increase in property taxes for the debt service costs in general elections. The bonds are generally issued as 20-year serial bonds with semi-annual payments of either principal, interest, or both. G.O. bonds outstanding at June 30, 2022, are shown below.

Bond Issue	Purpose	Interest Rates	Final Maturity	Amount Outstanding
2013 G.O. bonds	General government	4.5%-5.0%	Dec. 1, 2037	\$ 50,000,000
2014 G.O. bonds	General government	3.0%-4.0%	Dec. 1, 2038	17,000,000
2015 G.O. bonds	General government	2.9%-5.0%	Dec. 1, 2038	15,626,195
2019 G.O. bonds	General government	5.0%-5.5%	Dec. 1, 2043	277,740,000
2020 G.O. refunding bonds	General government	2.0%-5.0%	Dec. 1, 2024	22,205,000
Total G.O. Bonds				\$ 382,571,195

Annual debt service requirements to maturity for G.O. bonds are as follows:

	General Obligation Bonds			
Fiscal Year Ending				
June 30	Principal	Interest	Total	
2023	\$ 18,405,000	\$ 19,114,600	\$ 37,519,600	
2024	19,325,000	18,171,350	37,496,350

2028-2032	82,115,000	61,539,113	143,654,113	
2033–2037	70,705,000	43,816,237	114,521,237	
2038-2042	86,213,580	27,906,558	114,120,138	
2043-2044	42,970,000	2,394,975	45,364,975	
Totals	\$382,571,195	\$222,609,767	\$605,180,963	

Lease Obligations: The district leases equipment and facilities for various terms under long-term, non-cancelable lease agreements. The district, Littleton Academy, and Littleton Preparatory, respectively, recognizes a lease liability and an intangible right-to-use lease asset in the applicable

governmental activities in the government-wide and proprietary fund financial statements. At the commencement of the lease, the district, Littleton Academy, and Littleton Preparatory, respectively, measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position. The leases expire at various dates through 2032 and provide for renewal options ranging from one to five years.

Total future minimum lease payments under lease agreements for the district are as follows:

	Lease Obligations			
Fiscal Year Ending				
June 30	<u>Principal</u>	Interest	Total	
2023	\$ 156,566	\$ 11,121	\$ 167,687	
2024	119,092	7,520	126,612	
2025	87,568	5,082	92,649	
2026	49,764	3,298	53,062	
2027	22,319	2,583	24,902	
2028–2032	75,087	3,448	78,535	
Totals	\$510,396	\$33,052	\$543,448	

The district, Littleton Academy, and Littleton Preparatory, respectively, monitors changes in circumstances that would require a re-measurement of its lease and will re-measure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

The charters, Littleton Academy and Littleton Preparatory, leases equipment for various terms under long-term, non-cancelable lease agreements. The leases expire at various dates through 2027 and provide for renewal options ranging from one to five years.

Total future minimum lease payments under lease agreements for the Charters are as follows:

	Lease Obligations			
Fiscal Year Ending June 30	Principal	Interest	Total	
2023	\$ 5,054	\$ 194	\$ 5,248	
2024	1,581	113	1,694	
2025	1,624	70	1,694	
2026	1,668	26	1,694	
Totals	\$ 9,927	\$ 403	\$10,330	

Changes in Long-Term Debt: The changes in long-term liabilities for the primary government for the fiscal year ended June 30, 2022, are as follows:

	Balance (1)	Additions	Reductions	Balance	Due Within
Carrage and a stirition	July 1, 2021	Additions	Reductions	June 30, 2022	One Year
Governmental activities:					
G.O. bonds payable	\$ 397,556,195	\$ -	\$ (14,985,000)	\$ 382,571,195	\$ 18,405,000
Premium on bonds	57,567,474	-	(5,385,236)	52,182,238	-

Lease payable	534,643	137,003	(161,250)	510,396	156,566
Compensated absences	2,252,206	1,561,023	(1,393,244)	2,419,985	1,450,000
Totals	\$ 459,371,357	\$ 1,955,793	\$ (21,924,730)	\$ 439,402,420	\$ 20,011,566

(1) The beginning balance of this footnote was restated due to the implementation of GASB Statement No. 87. Note that there was no restatement of overall net position, however, due to the offset of the leased asset with the lease liability.

As a result of implementation of GASB87, Leases, \$534,643 in lease liabilities for leases of building, equipment, and vehicles and added to the long-term debt schedule above. Payment of G.O. bonds debt service, including bond principal, is made from the Debt Service Fund. The General Fund typically liquidates compensated absences. The General Fund is also typically used to liquidate pension and OPEB liabilities.

Component Unit Direct Borrowing: On January 20, 2022, the Colorado Educational and Cultural Facilities Authority (CECFA) issued \$9,030,000 of Charter School Revenue Refunding Bonds (not including bond premium), Series 2022 A& B, to advance refund CECFA's outstanding Series 2006 bonds on behalf of Littleton Academy Building Foundation (the Foundation). The Foundation used these direct borrowing proceeds of the Series 2022 bonds to acquire and remodel the school building for Littleton Academy Charter School.

Littleton Academy Charter School is obligated under a lease agreement to make monthly lease payments to the Foundation for use of the building. The Foundation is required to make semi-annual loan payments to the trustee for payment of the bonds. Bond interest payments are due semi-annually on January 1 and July 1, with interest accruing at rates at 4.0 percent. Principal payments are due annually on January 15 through 2056. There are no assets pledged as collateral in relation to this loan, and contain a provision that in an event of default, the principal outstanding may be declared or may become due and payable upon the conditions of the agreement.

Annual debt service requirements to maturity for the mortgage loan are as follows:

	Mortgage Loan				
Fiscal Year Ending					
June 30	Principal	Interest	Total		
2023	\$ -	\$ 338,821	\$ 338,821		
2024	135,000	356,688	491,688

2048-2052	1,790,000	620,400	2,410,400		
2053-2057	2,180,000	225,000	2,405,000		
Totals	\$9,030,000	\$7,790,346	\$16,820,346		

On January 31, 2013, Littleton Preparatory Charter School Building Corporation (the Corporation) borrowed \$7.34 million to acquire and remodel a building for the Littleton Preparatory Charter School building. This direct borrowing was obtained through a mortgage loan agreement with CECFA, which sold \$7.34 million of Charter School Revenue Bonds, Series 2013, on behalf of the Corporation.

The Corporation and CECFA entered into a mortgage loan agreement. Littleton Preparatory Charter School is obligated under a lease agreement to make monthly lease payments to the Corporation for use of the building. The Corporation is required to make semi-annual loan payments to the trustee for payment of the bonds. Bond interest payments are due semi-annually on June 1 and December 1, with interest accruing at 5.0 percent. Principal payments are due annually on December 1, beginning in 2014 through 2043. There are no assets pledged as collateral in relation to this loan, and contain a provision that in an event of default, the principal outstanding may be declared or may become due and payable upon the conditions of the agreement.

Annual debt service requirements to maturity for the mortgage loan are as follows:

Mortgage Loan				
Principal	Interest	Total		
\$ 160,000	\$ 311,250	\$ 471,250		
170,000	303,000	473,000

III. OTHER INFORMATION

15. Risk Management

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Liability and property: The district has a self-insured retention on its general liability, errors and omissions, and auto claims up to \$150,000 per occurrence. For claims in excess of \$150,000 up to \$5,000,000, the district is a member of the Excess-of-Loss Self-Insurance Pool (ELSIP), a public entity risk pool. ELSIP operates risk management and insurance programs for three participating member school districts. The district pays an annual premium for its coverage. ELSIP may require additional contributions if it determines the financial condition, including cash flow availability, so necessitates additional contributions. Additionally, the district purchases cyber liability coverage through American International Group (AIG). The district self-insures the first \$100,000 for each property claim and insures through Travelers additional losses up to approximately \$430.2 million. The district purchases other insurance policies for crime and fiduciary with varying deductibles and limits. Both charter schools participate with the district for all coverages.

Employee health care: All employee health care benefit plans of the district and the component units are commercially insured.

Workers' compensation: In 1986, the district joined with other school districts in the state of Colorado to form the Joint School Districts' Workers' Compensation Self-Insurance Pool (the Joint Pool), a public entity risk pool currently operating as a common risk management and insurance program with four participating members. The district pays an annual premium to the Joint Pool for its workers' compensation coverage. The Joint Pool may require additional contributions if it determines the financial condition, including cash flow availability, so necessitates additional contributions. Each member of the Joint Pool is responsible for \$100,000 of each loss. Losses between \$100,000 and \$550,000 are pooled between the member districts, and losses in excess of \$550,000 are reinsured for up to statutory limits. The component units participate with the district in the Joint Pool.

16. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the district expects such amounts, if any, to be immaterial.

The district is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the district's counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the district.

17. Constitutional TABOR Amendment

In the November 1992 general election, Colorado voters approved an amendment to the Colorado Constitution commonly known as TABOR. This amendment limits the ability of the state and local governments, such as the district, to increase revenues, debt, and spending. In addition, TABOR requires that the state and local governments obtain voter approval to create any multiple fiscal year direct or indirect debt or other financial obligations without adequate present cash reserves pledged irrevocably and held for payments in all future fiscal years.

In the November 1998 general election, the district's electorate authorized the district to collect, retain, and expend all revenues and other funds collected during fiscal year 1999 and each subsequent year from any source, notwithstanding the TABOR limitations. The district remains subject to TABOR with respect to general mill levy increase restrictions and to the issuance of any new debt without taxpayers' approval. The TABOR amendment is subject to many interpretations, but the district believes it is in compliance. TABOR requires that an emergency reserve be established. Net position and fund balances of \$5,110,000 have been restricted for this emergency reserve at June 30, 2022.

18. Public Employees' Retirement Association of Colorado (PERA)

Summary of Significant Accounting Policies

The district and its two charter schools, Littleton Academy and Littleton Preparatory, participate in the School Division Trust Fund (SCHDTF), a cost-sharing, multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA).

The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description: Eligible employees of the district, Littleton Academy, and Littleton Preparatory are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing, multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided: As of December 31, 2021, PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement

eligibility is specified in tables set forth at C.R.S. 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The first 10 years of service credit multiplied by \$15 plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases, the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers, waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether five years of service credit has been obtained, and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases (AI) in the C.R.S., once certain criteria are met. Pursuant to SB 18-200, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase or annual increase of 1.00 percent unless adjusted by the automatic adjustment provision (AAP) pursuant to C.R.S. 24-51-413. Eligible benefit recipients under the PERA benefit structure who began eligible employment on or after January 1, 2007, will receive the lesser of an annual increase of 1.00 percent annual increase cap or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI for a given year by up to one-quarter of one percent based on the parameters specified in C.R.S. 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula shown above considering a minimum 20 years of service credit; if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions: Provisions as of June 30, 2022, eligible employees of the district, Littleton Academy, and Littleton Preparatory are required to contribute to the SCHDTF at a rate set by

Colorado statute. The contribution requirements are established under C.R.S. 24-51-401, et seq. and 24-51-413. Eligible employees are required to contribute 10.50 percent of their PERA-includable salary during the period of July 1, 2021, through June 30, 2022.

1..... 1 2021

The employer contribution requirements are summarized in the table below.

	July 1, 2021 Through June 30, 2022
Employer contribution rate*	10.90%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. 24-51-208(1)(f) *	(1.02)
Amount Apportioned to the SCHDTF*	9.88
Amortization Equalization Disbursement (AED) as specified in C.R.S. 24-51-411 *	4.50
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. 24-51-411 *	5.50
Total Employer Contribution Rate to the SCHDTF*	19.88%

^{*}Contribution rates are expressed as a percentage of salary as defined in C.R.S. 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member. The district, Littleton Academy, and Littleton Preparatory are statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the district, Littleton Academy, and Littleton Preparatory were \$21,295,489; \$508,909; and \$616,694, respectively for the year ended June 30, 2022.

For purposes of GASB 68 paragraph 15, a circumstance exists in which a non-employer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation. As specified in C.R.S. 24-51-414, the State is required to contribute \$225 million (actual dollars) direct distribution each year to PERA starting July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. In addition to the \$225 million (actual dollars) direct distribution due July 1, 2022, House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million (actual dollars), upon enactment, with reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for the SCHDTF was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll forward the total pension liability to December 31, 2021.

The district, Littleton Academy and Littleton Preparatory proportions of the net pension liability were based on their respective contributions to the SCHDTF for the calendar year

2021 relative to the total contributions of participating employers and the state as a nonemployer contributing entity.

At June 30, 2022, the district, Littleton Academy, and Littleton Preparatory reported a liability for their proportionate shares of the net pension liability. The amount recognized as their proportionate shares of the net pension liability, the related state support, and the total portion of the net pension liability associated with the district, Littleton Academy, and Littleton Preparatory were as follows:

			Littleton	Littleton
		District	Academy	Preparatory
Proportionate share of the net pension liability	\$ 1	198,716,525	\$ 5,044,384	\$ 6,247,628
State's proportionate share of the net pension liability		22,780,312	578,274	716,211
Total	\$ 2	221,496,837	\$ 5,622,658	\$ 6,963,839

At December 31, 2021, the district and the two charter schools' proportion was 1.805 percent, which was a decrease of 0.205 percent from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the district, Littleton Academy, and Littleton Preparatory recognized net pension income of \$74,481,418; \$1,551,601; and \$2,276,157, respectively. For the year ended June 30, 2022, the district, Littleton Academy, and Littleton Preparatory recognized revenue of \$2,432,089; \$61,738; and \$76,465, respectively for support from the state as a non-contributing entity. At June 30, 2022, the district, Littleton Academy, and Littleton Preparatory reported deferred outflows of resources and deferred inflows of resources related to pensions from the sources:

	Dist	trict	Littleton	Academy	Littleton Preparatory	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Deferred Outflows of Inflows of Resources Resources		Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$7,607,665	\$ -	\$ 193,119	\$ -	\$ 239,184	\$ -
Changes of assumptions or other inputs	15,170,523	-	385,101	-	476,960	-
Net difference between projected and actual earnings on pension plan investments	-	74,711,478	-	1,896,538	-	2,348,922
Changes in proportion and differences between contributions recognized and proportionate share of contributions	12,123,415	26,181,397	307,751	664,610	381,159	823,141
Contributions subsequent to the measurement date	10,583,341	-	268,656	-	332,739	-
Total	\$45,484,944	\$100,892,875	\$ 1,154,627	\$2,561,148	\$1,430,042	\$3,172,063

The \$10,583,341; \$268,656; and \$332,739 from the district, Littleton Academy, and Littleton Preparatory, respectively, are reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		Littleton	Littleton
Year Ended:	District	Academy	Preparatory
2023	\$ (8,429,443)	\$ (213,980)	\$ (265,021)
2024	(27,143,867)	(689,042)	(853,401)
2025	(21,349,588)	(541,956)	(671,229)
2026	(9,068,374)	(230,199)	(285,109)
2027	-	-	-
Thereafter	-	_	-

.

.

Actuarial assumptions: The total pension liability in the December 31, 2020, actuarial valuation used the following actuarial cost method, actuarial assumptions, and other inputs:

Actuarial cost method	Entry age
Price inflation	2.30 %
Real wage growth	0.70 %
Wage inflation	3.00 %
Salary increases—including wage inflation	3.40-11.00 %
Long-term investment rate of return, net of pension plan	
investment expenses, including price inflation	7.25 %
Discount rate	7.25 %
Post-retirement benefit increases:	
PERA benefit structure hired prior to January 1, 2007; and DPS Benefit Structure (compounded annually)	1.00 %
PERA benefit structure hired after December 31, 2006 ¹	Financed by the AIR

(1) Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

The total pension liability as of December 31, 2021, includes the anticipated adjustments to contribution rates and the annual increase cap, resulting from the 2020 automatic adjustment provision assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.

The mortality tables described below are generational mortality tables developed on a benefit-weighted basis.

Pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

• Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.

• **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

For disabled retirees, the mortality assumption was based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the periods January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board during their meeting on November 20, 2020.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimated of geometric real rates of return for each major asset class are summarized in the table as follows:

		30 Year Expected Geometric Real
Asset Class	Target Allocation	Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00	1.30
Private Equity	8.50	7.10
Real Estate	8.50	4.40
Alternatives	6.00	4.70
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

Discount rate: The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

• Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan

members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.

- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200, required adjustments resulting from the 2018 automatic adjustment provision assessment, and the additional 0.50 percent resulting from the 2020 adjustment provision assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, required adjustments resulting from the 2018 automatic adjustment provision assessment, and the additional 0.50 percent resulting from the 2020 adjustment provision assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the state of Colorado, as a nonemployer contributing entity, will
 provide an annual direct distribution of \$225 million (actual dollars), commencing July 1,
 2018, and is proportioned between the state, district, judicial, and DPS division trust
 funds based upon covered payroll of each division. The annual direct distribution ceases
 when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered AI cap, from 1.25 percent to 1.00 percent, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the GASB Statement No. 67 projection test indicates the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount determination does not use the municipal bond rate, and therefore the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the district's, Littleton Academy's, and Littleton Preparatory's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The chart on the following page presents the proportionate share of the net pension liability calculated using the discount

rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
District's proportionate share of the net pension liability	\$292,494,473	\$198,716,525	\$120,462,328
Littleton Academy's proportionate share of the net pension liability	7,424,921	5,044,384	3,057,915
Littleton Preparatory's proportionate share of the net pension liability	9,195,997	6,247,628	3,787,324

Pension plan fiduciary net position: Detailed information about the SCHDTF's fiduciary net position is available in PERA's Annual Report, which can be obtained at www.copera.org/investments/pera-financial-reports.

19. Postemployment Benefits Other Than Pensions (OPEB)

Summary of Significant Accounting Policies

The district, Littleton Academy, and Littleton Preparatory participate in the Health Care Trust Fund (HCTF), a cost-sharing, multiple-employer defined benefit OPEB fund administered by Colorado PERA. The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position, and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Plan Description: Eligible employees of the district, Littleton Academy, and Littleton Preparatory are provided with OPEB through the HCTF—a cost-sharing, multiple-employer defined benefit other postemployment benefit (OPEB) plan administered by Colorado PERA. The HCTF is established under Title 24, Article 51, Part 12 of the C.R.S., as amended. Colorado state law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. PERA issues a publicly available annual comprehensive financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided: The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans; however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in Denver Public Schools (DPS) division and one or more of the other four divisions (state division, school division, local government division, and judicial division trust funds), the premium subsidy is allocated between the HCTF and the DPS HCTF.

The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in PERACare health benefits program is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure. The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a five percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B, and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure. The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service—based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a five percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions: Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the state, school, local government, and judicial divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member, and the district, Littleton Academy, and Littleton Preparatory are statutorily committed to pay the contributions. Employer contributions recognized by the HCTF were \$1,094,279; \$25,060; and \$31,038, respectively, for the year ended June 30, 2022.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: At June 30, 2022, the district, Littleton Academy, and Littleton Preparatory reported a liability of \$9,664,860; \$221,314; and \$274,105, respectively, for their proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2021. The district's and the two charter schools' proportions of the net OPEB liability were based on total contributions to the HCTF for the calendar year 2021 relative to the total contributions of participating employers to the HCTF. At December 31, 2021, the district's, Littleton Academy's, and Littleton Preparatory's total proportion was 1.178 percent, which was an increase of 0.016 percent from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the district, Littleton Academy, and Littleton Preparatory recognized OPEB income of \$725,711; \$9,412; and \$25,286, respectively. At June 30, 2022, the district, Littleton Academy, and Littleton Preparatory reported deferred outflows of resources and deferred inflows of resources related to OPEB from the sources shown on the table below.

	Dist	rict	Littleton	Academy	Littleton Preparatory		
	Deferred	Deferred	Deferred	Deferred	Deferred	Deferred	
	Outflows of	Inflows of	Outflows of	Inflows of	Outflows of		
	Resources	Resources	Resources	Resources	Resources	Resources	
Difference between expected and actual experience	\$ 14,727	\$2,291,656	\$ 337	\$ 52,476	\$ 418	\$ 64,994	
Changes of assumptions or other inputs	200,100	524,262	4,582	12,005	5,675	14,869	
Net difference between projected and actual earnings on OPEB plan investments	-	598,258	-	13,699	-	16,967	
Changes in proportion and differences between contributions recognized and proportionate share of contributions	155,186	669,409	3,554	15,329	4,401	18,985	
Contributions subsequent to the measurement date	545,882	-	12,500	-	15,482	-	
Total	\$ 915,895	\$4,083,585	\$ 20,973	\$ 93,509	\$ 25,976	\$ 115,815	

The \$545,882; \$12,500; and \$15,482 from the district, Littleton Academy, and Littleton Preparatory, respectively, are reported as deferred outflows of resources related to OPEB will result in the district, Littleton Academy, and Littleton Preparatory contributions subsequent to the measurement date being recognized as a reduction in the net OPEB liability in the year

ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

		Littleton	Littleton
Year Ended June 30	District	Academy	Preparatory
2023	\$ (1,023,321)	\$ (23,433)	\$ (29,022)
2024	(1,079,389)	(24,717)	(30,613)
2025	(1,009,307)	(23,112)	(28,625)
2026	(529,627)	(12,128)	(15,021)
2027	(65,160)	(1,492)	(1,848)
Thereafter	(6,768)	(155)	(192)

Actuarial assumptions: The total OPEB liability in the December 31, 2020, actuarial valuation was determined using the actuarial assumptions and other inputs as shown on the table below:

PERACare Medicare plans N/A N/A N/	I/A N/A
Medicare Part A premiums N/A N/A N/A	I/A N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2020, valuation,

the following monthly costs/premiums are assumed for 2020 for the PERA benefit structure:

	Monthly Cost for Members Without Medicare	Monthly Premiums for Members Without Medicare	Monthly Cost for Members Adjusted to Age 65 without	
Medicare Plan	Part A	Part A	Medicare Part A	
Medicare Advantage/Self-				
Insured Prescription	\$ 633	\$ 230	\$ 591	
Kaiser Permanente Medicare				
Advantage HMO	596	199	562	

The 2021 Medicare Part A premium is \$471 (actual dollars) per month.

All costs are subject to the health care cost trend rates discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models, and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare and Medicaid Services are referenced in the development of these rates. Effective December 31, 2020, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below.

	PERACare Medicare	Medicare Part A
Year	Plans	Premiums
2021	4.50%	3.75%
2022	6.00	3.75
2023	5.80	4.00
2024	5.60	4.00
2025	5.40	4.00
2026	5.10	4.25
2027	4.90	4.25
2028	4.70	4.25
2029+	4.50	4.50

Mortality assumptions used in the December 31, 2020, valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below, reflect generational mortality and were applied, as applicable, in the determination of the total OPEB liability for the HCTF, but developed using a headcount-weighted basis. Affiliated employers of the state, district, local government, and judicial divisions participate in the HCTF.

Pre-retirement mortality assumptions for the State and Local Government Divisions (members other than State Troopers) were based upon the PubG-2010 Employee Table with

generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

The pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the Judicial Division were based upon the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the state and local government divisions (members other than State Troopers) were based on the PubG-2010 Healthy Retiree Table, adjusted as follows:

- Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the School Division were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the Judicial Division were based upon the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019. The following health care costs assumptions were updated and used in the roll-forward calculation for the Trust Fund:

• Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for

premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2021 plan year.

• The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by PERA Board's actuary, as discussed above.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by PERA's Board during the November 20, 2020, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors were considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent reaffirmation of the long-term expected rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table below:

Asset Class	Target Allocation	30-Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00	1.30
Private Equity	8.50	7.10
Real Estate	8.50	4.40
Alternatives ¹	6.00	4.70
Total	100.00%	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Sensitivity of the District's, Littleton Academy's, and Littleton Preparatory's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the district's, Littleton Academy's, and Littleton Preparatory's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The table on the following page presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in	Current Trend	1% Increase in
	Trend Rates	Rates	Trend Rates
Initial PERACare Medicare trend rate	3.50%	4.50%	5.50%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.75%	3.75%	4.75%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
District's proportionate share of the net OBEB liability	\$9,387,313	\$9,664,861	\$9,986,378
Littleton Academy's proportionate share of the net OPEB liability	214,959	221,314	228,677
Littleton Preparatory's proportionate share of the net OPEB liability	266,234	274,105	283,224

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the
- December 31, 2021, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the HCTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's, Littleton Academy's, and Littleton Preparatory's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The table on the following page presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discounted rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current discount rate:

	1% Decrease	Current Discount	1% Increase
	(6.25%)	Rate (7.25%)	(8.25%)
District's proportionate share of the next			
OPEB liability	\$11,224,724	\$9,664,861	\$8,332,467
Littleton Academy's proportionate share of			
the next OPEB liability	257,033	221,314	190,804
Littleton Preparatory's proportionate share of			
the next OPEB liability	318,344	274,105	236,317

OPEB Plan Fiduciary Net Position

Detailed information about the HCTF's fiduciary net position is available in PERA's Annual Audit, which can be obtained at www.copera.org/investments/pera-financial-reports.

20. Subsequent Event Arbitration

The district entered into collective bargaining agreements with the Littleton Education Association (LEA) dated August 1, 2020 – July 31, 2021, and August 1, 2021 – July 31, 2022. Both agreements contain Exhibit C "Potential Salary Adjustments" sections that could result in additional one-time salaries for all district employees. The LEA has filed a grievance against the district on the interpretation of the Exhibit C language for the agreement dated August 1, 2020 – July 31, 2021. The matter is currently awaiting non-binding arbitration.

Required Supplementary Information

NOTE 1: Budgetary Information

- a. The District prepares budgets for all funds. During May, the superintendent of schools submits to the Board of Education a proposed budget for all funds for the fiscal year commencing July 1. The budget includes proposed expenditures and the means for financing them.
- b. Notice is provided to taxpayers of the availability for inspection of the proposed budget. Prior to June 30, the budget is adopted by formal resolution of the Board of Education. C.R.S. 22-44-110 (5) allows the Board of Education to review and change the Adopted Budget, with respect to both revenues and expenditures, at any time prior to January 31.
- c. Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments within any fund and the reallocation of budget line items within any department within any fund rests with the superintendent of schools. Revisions that alter the total expenditures of any fund must be approved by the Board of Education. Appropriations are based on total funds expected to be available in each budget year including beginning fund balances and reserves as established by the Board of Education.
- d. Budgets are adopted on a basis consistent with GAAP, with the exception of the on-behalf payments for retirement benefits to Colorado PERA paid by the state of Colorado.
- e. The budgets reported in the accompanying financial statements and schedules as adopted by the Board of Education were done so as authorized.
- f. Appropriations for all funds lapse at the fiscal year end.
- g. The Risk Management Fund is a sub-fund of the General Fund, and its budget is approved by the Board of Education annually. The Statement of Revenues, Expenditures, and Changes in Fund Balances combines the actual revenues and expenditures of the General Fund and the Risk Management Fund. A budgetary comparison schedule is provided separately for both the General Fund and the Risk Management Fund. The following is a reconciliation of the General Fund actual revenues and expenditures as reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance.

	General		Risk Management

NOTE 2: Changes in Pension Benefit Terms and Actuarial Assumptions

- a. Changes in assumptions or other input effective for the December 31, 2021, measurement period are as follows:
 - The projected benefit payments reflect the lowered annual increase cap from 1.25 percent to 1.00 percent, resulting from the 2020 AAP assessment, effective July 1, 2022.
 - Assumptions on employer and employee contributions were updated to include the additional 0.50 percent resulting from the 2020 AAP assessment, effective July 1, 2022.
- b. Changes in assumptions or other input effective for the December 31, 2020, measurement period are as follows:
 - The price inflation assumption was lowered from 2.40 percent to 2.30 percent, and the wage inflation assumption was lowered from 3.50 percent to 3.00 percent.
 - The real rate of investment return assumption was increased to 4.95 percent per year, net of investment expenses, from 4.85 percent per year, net of investment expenses.
 - Salary scale assumptions were revised to align with the revised economic assumptions and to more closely reflect actual experience.
 - Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
 - The pre-retirement mortality assumption for the State Division (members other than State Troopers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
 - The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above Median Employee Table with generational projection using scale MP-2019.
 - The post-retirement non-disabled mortality assumption for the State Division (Members other than State Troopers) was changed to the PubG-2010 Health Retiree Table, adjusted as follows:
 - Males: 94 percent of the rates prior to age 80 and 90.00 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
 - Females: 87 percent of the rates prior to age 80 and 107.00 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
 - The post-retirement non-disabled mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
 - The disabled mortality assumptions for the Division Trust Funds (Members other than State Troopers) was changed to the PubNS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
 - The disability mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
 - The mortality tables described above are generational mortality tables on a benefit-weighted basis.
- c. Changes in assumptions or other inputs effective for the December 31, 2019, measurement period are as follows:
 - The assumption used to value the annual increase (AI) cap benefit provision was changed from 1.50 percent to 1.25 percent.

- d. Changes in assumptions or other inputs effective for the December 31, 2018, measurement period are as follows:
 - The assumed investment rate of return of 7.25 percent was used as the discount rate, rather than using the blended rate of 4.72 percent.
- e. Changes in assumptions or other inputs effective for the December 31, 2017, measurement period are as follows:
 - The discount rate was lowered from 5.26 percent to 4.72 percent.
- f. Changes in assumptions or other inputs effective for the December 31, 2016, measurement period are as follows:
 - The investment return assumption was lowered from 7.50 percent to 7.25 percent.
 - The price inflation assumption was lowered from 2.80 percent to 2.40 percent.
 - The real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
 - The wage inflation assumption was lowered from 3.90 percent to 3.50 percent.
 - The mortality tables were changed from RP-2000 Combined Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on a projection scale of Scale AA to 2020 to RP-2014 White Collar Employee Mortality for active employees, RP2014 Healthy Annuitant Mortality tables projected to 2020 using the MP-2015 projection scales for retirees, or RP-2014 Disabled Retiree Mortality Table for disabled retirees.
 - The discount rate was lowered from 7.50 percent to 5.26 percent.
- g. There were no changes in terms or assumptions for the December 31, 2015, measurement period for pension compared to the prior year.
- h. There were no changes in terms or assumptions for the December 31, 2014, measurement period for pension compared to the prior year.
- i. Changes in assumptions or other input effective for the December 31, 2013, measurement period are as follows:
 - The investment return assumption was lowered from 8.00 percent to 7.50 percent.
 - The price inflation assumption was lowered from 3.50 percent to 2.80 percent.
 - The wage inflation assumption was lowered from 4.25 percent to 3.90 percent.

NOTE 3: Changes in OPEB Benefit Terms and Actuarial Assumptions

- a. There were no changes in assumptions or other inputs effective for the December 31, 2021, measurement period for OPEB.
- b. Changes in assumptions or other input effective for the December 31, 2020, measurement period are as follows:
 - The price inflation assumption was lowered from 2.40 percent to 2.30 percent, and the wage inflation as-

sumption was lowered from 3.50 percent to 3.00 percent.

- The real rate of investment return assumption was increased to 4.95 percent per year, net of investment expenses, from 4.85 percent per year, net of investment expenses.
- Salary scale assumptions were revised to align with the revised economic assumptions and to more closely reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumption for the State Division (members other than State Troopers) was changed to the PubG-2010 Employee Table with generational projection using scale MP-2019.
- The pre-retirement mortality assumption for the Judicial Division was changed to the PubG-2010(A) Above Median Employee Table with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the State Division (Members other than State Troopers) was changed to the PubG-2010 Health Retiree Table, adjusted as follows:
 - Males: 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
 - Females: 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the State Troopers was changed to the unadjusted PubS-2010 Healthy Retiree Table, with generational projection using scale MP-2019.
- The post-retirement non-disabled mortality assumption for the Judicial Division was changed to the unadjusted PubG-2010(A) Above-Median Healthy Retiree Table with generational projection using scale MP-2019. The post-retirement non-disability beneficiary mortality assumption for the Division Trust Funds was changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
 - Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
 - Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.
- The disabled mortality assumption for the Division Trust Funds (Members other than State Troopers) was changed to the PubNS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
- The disabled mortality assumption for State Troopers was changed to the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019.
- The mortality tables described above are generational mortality tables on a benefit-weighted basis.
- c. There were no changes in assumptions or other inputs effective for the December 31, 2019, measurement period for OPEB.
- d. There were no changes in assumptions or other inputs effective for the December 31, 2018, measurement period for OPEB compared to the prior year.
- e. There were no changes in assumptions or other inputs effective for the December 31, 2017, measurement period for OPEB.

Combining and Individual Fund Statements and Schedules

This page left blank and unnumbered intentionally for presentation purposes

ARAPAHOE COUNTY SCHOOL DISTRICT NUMBER SIX

Nonmajor Governmental Funds

The first statements and schedules in this supplementary information are those of the nonmajor governmental funds. Special revenue funds are used to account for specific revenues that are restricted or committed to expenditures for particular purposes.

Designated Purpose Grants Fund. This fund is used to account for federal and state grants which are restricted as to the type of expenditures for which the grants may be used.

Nutrition Services Fund. This fund is used to account for the operation of breakfast, lunch, and summer feeding programs.

Extended Day Care Program Fund. This fund is used to account for preschool and before- and after-school day care programs.

Student Athletic, Activities, and Clubs Fund. This fund accounts for extracurricular activities at the elementary, middle, and high school levels; intramural athletic programs at the middle level; varsity athletic programs at the high school level; district-sponsored activities at the high school level; and clubs at all levels.

Capital Projects Fund. This fund is used to account for the acquisition of land, construction of new facilities, alterations and improvements to existing structures, and the acquisition of school buses and/or other equipment.

Operations and Technology Fund. This fund is used to account for the ongoing building maintenance, capital improvements, technology expenditures, and a per-pupil allocation to the Charter Schools. Funding is provided from the Debt-Free Schools Mill Levy passed by the Voters in November 2020.
