Community Use of School District Facilities – Fee Schedule

Rental Categories:

Category A: NO RENTAL FEE IS ASSESSED

Concept:

School curricular programs and school-sponsored programs should be permitted use of District facilities without payment of a rental fee. Additional charges for custodial and other personnel may be assessed if such personnel's normal work schedule is altered to assist the activity.

Applies to:

- ◆ Regular curricular programs of the District.
- ◆ School-sponsored student activities and organizations free and open to all participants/spectators, and approved by the Building Principal.
- ◆ District-sanctioned athletic and activity events ratified by the Board of Education.
- ◆ School-affiliated organizations whose use is approved by the principal and where no fees are assessed nor donations requested of participants. Examples are PTO meetings, faculty/staff meetings, recognized school related parent group meetings (e.g., Parents' Council), and recognized school related community group meetings (e.g., Budget Hearings).
- ◆ National, state, and local governmental elections.
- ◆ Community youth groups organized for the purpose of education or community service.
- ◆ District-requested and Staff Development Office approved in-service or staff development offerings free to district personnel.
- ◆ Such use by District employee groups as may be provided for within specific personnel policies.

Category B: DISTRICT YOUTH RATE

Concept:

Nonprofit recreational and educational groups and organizations established to serve LPS youth through grade twelve (12) should be permitted access to the facilities of the District. District youth rate is designed to recover direct costs including utilities, supplies, and custodial fees. Additional charges for custodial and other personnel may be assessed when such personnel's normal work schedule is altered to assist the activity. At least 75 percent of the youth participants shall attend LPS schools.

Applies to:

- ◆ Youth activities where instructors or supervisors receive payment for their involvement in the activity, and/or where fees are assessed or donations requested of participants and/or spectators.
- ◆ Educational and/or recreational activities for youth offered by South Suburban Park and Recreation District, YMCA, or community “feeder” athletic teams.
- ◆ Sports camps offered to LPS youth.

Category C

COMMUNITY RATE

Concept:

This category applies to not for profit organizations established to serve youth through grade twelve (12) where less than 75 percent of the youth attend LPS schools, and not-for-profit and community groups sponsoring activities for adults. This includes park and recreation districts sponsoring adult activities that overlap the School District boundaries. Additional charges for custodial and other personnel may be assessed when such personnel’s normal work schedule is altered to assist the activity.

Applies to:

- ◆ Youth activities where instructors or supervisors receive payment for their involvement in the activity, and/or where fees are assessed or donations requested of participants and/or spectators.
- ◆ Park and recreational district sponsored activities for adults.
- ◆ Colleges and Universities offering classes and charging tuition, including in-services not requested by the District.
- ◆ Church services and other activities sponsored by religious organizations.
- ◆ Home owners associations.
- ◆ Other community-sponsored groups where instructors or supervisors receive payment for their involvement in the activity, and/or where fees are assessed or donations requested of participants and/or spectators.
- ◆ LPS community adult recreational groups.
- ◆ Area organizations sponsoring activities for adults.
- ◆ Examples include adult activities of South Suburban Parks and Recreation, and Arapahoe Community College.

Category D: COMMERCIAL RATE

Concept:

Commercial users (an event and/or activity subject to normal income taxation as per IRS guidelines), private users, or non-community, non-school groups or individuals may rent the facilities of the District when such use is not incompatible with school activities or policies. These rental fees, which always include additional custodial and personnel costs, are greater than all other categories and generally competitive with the private sector.

Applies to:

- ◆ For profit organizations or individuals.
- ◆ Not-for-profit organizations outside of the LPS district boundaries.
- ◆ Any individual, organization, group, or other potential Lessee not specifically addressed in any other category, will be treated as a Category D activity.
