The 11th Annual Littleton Stride

Title Sponsor – Ralph Schomp Automotive

Last Sunday, on a beautiful, sunny, November morning, runners, volunteer, and corporate partners turned out for the 11th annual running (and walking) of the Littleton Stride.

Here is a big “Thank You” to all who participated. It is this kind of support that enables the LPS Foundation to fund the teacher grants and District projects that benefit our entire community.

The Stride is all about competition and there were plenty of awards to give out –

- the highest percentage of school participation.
- the highest percentage of high school cross-country team participation
- the fastest high school cross-country team
- the fastest runners (10K and 5K) and walkers (5K and 1K),

Here are the results:

- the highest percentage of elementary school participation – Sandburg
- the highest percentage of middle school participation – Euclid
- the highest percentage of high school participation – Heritage

Each of these schools received a check for \$200. An additional \$300 prize went to the school with the overall highest percentage of participation. This winner was Sandburg Elementary.

The Heritage High School cross-country team was not only the fastest, but also had the highest percentage of participation. The team won a trophy and the Booster Club will receive \$200.

Medals were presented to the fastest runners in each race category. All race results are posted at web site www.bkbltd.com.

And many thanks to our invaluable corporate partners
